Features Selling Point Introduction

# PCB

from **MEGMEET** core technology

Thyristor water cooling

Industrial Grade Chips

High stability of electronics

Gluing treatment, waterproof upgrade

Full functional requirement coverage

Designed in strict accordance with international standards

## Heated seat

30 points accurate temp detection

4 levels temp. adjustable

Ergonomics, seat temperature adaption

# Anti bacteria seat

Using SIAA international authoritative certified silver ion antibacterial material

**Antibacterial rate up to 99%**

Staphylococcus goldenus, E. coli inhibition rate

# Multi wash modes

Rear wash, front wash, oscillating wash, SPA massage, bubble wash. Different cleaning modes are available to meet the needs of the whole family.

rear wash

front wash

oscillating  
wash

self clean  
nozzle

Adjustable water pressure : 3 levels  
Adjustable water temperature : 4 levels  
Adjustable nozzle position : 5 levels

# H/C massage

Alternating hot and cold water massage cycle, reciprocal stimulation to promote anal contraction, effective prevention of hemorrhoids constipation

## Industry Firsts

A more user-friendly way to promote bowel movements

## 5~10s

5s cold water, 10s hot water

# Air Bubble wash

Air pump inside, let air inject into water. Water with air, a perfectly combination to make the wash softer and more comfortable.

# Instant heating

Industry-leading instant heating technology, source of living water unlimited washing, no longer worry about storage hot water exhaustion of the trouble

**Eco**

¥0.2 per day

**Fast**

0.2s instant heating

**Stable**

±1°C constant heating

**Clean**

Live water heating

Inlet water temperature control sensor

Outlet water temperature control sensor

# 3D Stainless steel curved spray rod

Newly upgraded 3D arc-shaped stainless steel spray rod can effectively prevent dirt

Arc-shape spray rod

straight spray rod

# Detachable nozzle

The design of quick-release nozzle is convenient for daily toilet cleaning and regular wand replacement, solving the problem of scale blockage.

**Easy  
replacement**

**Prevent dirt  
sticknes**

# Air dryer

Say goodbye to toilet paper

Care the delicate skin with comfortable warm air

**4 levels**

Adjustable air temp.

**35~55°C**

Warm air

# RF remote control

Radio frequency technology: Different from the infrared remote control that needs to be aligned with the receiving device to receive the signal, the radio frequency remote control can control the machine at any angle to realize the function, even if the user is seated with his back to the machine, just press the button to realize the function without worrying about the function No response.

The 2.4G transmission rate is faster than 433MHz, and the function will respond immediately when the user presses the button.

**360°  
RF Tech**

**2.4G  
Faster transfer**

# UV sterilizer

After 10 seconds away from the seat, it will open up to 3 minutes of UV sterilization. The 280nm wavelength can effectively remove bacteria and dirt. The killing rate of Escherichia coli, Staphylococcus aureus and Candida albicans is as high as 99%, avoiding cross infection and giving family members meticulous care.

大肠杆菌

金黄色葡萄球菌

白色念珠菌
